Chapter 1

SOMETHING STRANGE

It's the middle of the night. You're sound asleep. Suddenly, a bright light floods your bedroom, waking you. Next thing you know, a strange creature is beside your bed. It has gray skin, big black eyes, and a large head. Thin fingers reach out to you. Then everything goes black. When you wake again, you're alone. Were you just visited by aliens?

Out of this World

The idea of aliens is exciting. People everywhere wonder if humans are alone in the **universe**. They want to know if aliens visit Earth. They wonder if **unidentified** flying objects (UFOs) are spaceships. Researchers try to solve these mysteries. They want to know if aliens exist.

Chapter 2

RESEARCHERS

Many people search for aliens. The SETI Institute works with NASA and the National Science Foundation. Together, these groups study planets that might have life. Another group is the Mutual UFO Network (MUFON). This group tracks UFO sightings. Governments also study UFOs. They want to know if UFOs are dangerous.

Want to see a UFO?
Visit these places. People
often see UFOs there.
