## Chapter 1

Deadly

# Sneaker

Imagine this. You're sitting alone in your living room. You're reading a book (because you're smart). The house is totally quiet. Suddenly, a person dressed in black pajamas leaps out. You let out a bloodcurdling scream.

Hold on. Relax. This scene isn't happening right now. But it could happen someday. You could come face-to-face with a ninja at any time.

## Prepare Yourself

When a ninja sneaks up, *nobody* hears it. That is, until it's too late. A ninja's job is to learn people's secrets. Do you have any secrets? You know, like where your mom hides the cookies. Or who your best friend has a crush on.

If you have **classified** info like that, watch out. Ninja might come after you. And that's why you need to know how to outsmart them.

## Chapter 2

### Know Your

# Enemy

It's important to learn all you can about ninja. You'll have a better chance to get away. The problem is that it's hard to learn about ninja. Nobody knows who they are. The person sitting next to you could be a ninja. Watch for clues. Do they have soft footsteps? Do they disappear at **random** times?

Hmmmmmm ...

Ninja in history are known for their fighting. They trained in **martial arts**. Are you a black belt in anything? If not, you really need this book.
